** Johnny "C" Vitamins

{Fast acting 'pills' for putting ills} ..also known as "qwikies" !!!

In this world of fast food, fast cars, and fast greens, the following "prescriptions" are unlike antibiotics of which the entire bottle of pills must be taken! In fact, these putting tips may sound like 80 mg, but they pack the punch of 500! Ready?

Open wide, here it comes!

Qwikie #/ - Before playing, instead of putting 3 balls, use just 1 before you tee off. When you play, you only have 1 shot at it! Thank you, Mr. Henry McQuiston (Bala CC Philly) for this one!!

Quikie #2 - When practicing, start by making putts from one foot, moving back 9 inches or so, until ya start missin.. notice at what length ya start missin', then concentrate on that length...Thank you, Johnny Carson (Blue Bell CC)

Qwikie #3 - Leavin' 'em short. Don't hit harder with hands; get more distance by using your trail elbow ...ala Golden Bear!!

Qwikie #4 & 5- Put talc on the side of the ball, make a stroke, and note where the white "dimple" marks are on the putter face. Heel? Toe? Make necessary adjustments. Caution; don't use the Mrs.' \$200-an-oz. French talc. Go to the dollar store and save your marriage!!

Remember, eyes over ball, ball off left foot, left wrist turned under, hit down on ball, hit up on ball, on and on ad infinitum... All that, then the putt is missed. Then he or she reaches over from 3 1/2 ft and backhands the darn ball in the hole!! Sound familiar? C'mon, lighten up! Stop worryin' about the consequences of missing, or you will miss. Get your line, then make 1 or 2 practice putts for the speed. Don't agonize over the ball changing the line... your speed'll be off!!!

As with all medicines, these pills have certain side affects. Use as follows: If you see instant improvement, don't abuse your practice priviledge..thus causing domestic problems. Also, it's not necessary to give up alcohol when using these pills IF you're at home putting. For refills, consult the Golf Almanac--under Dr. "C"!

Thanks and GGH=[good golf health]..
